NEWPORT EXPLORATION LTD.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
(Unaudited)
(Expressed in Canadian Dollars)
OCTOBER 31, 2013

1. NATURE OF OPERATIONS AND GOING CONCERN

Newport Exploration Ltd. (the “Company”) was incorporated on September 19, 1979 under the Business Corporations Act, British Columbia and is considered to be in the exploration stage with respect to its evaluation and exploration assets. Based on the information available to date, the Company has not yet determined whether its exploration and evaluation assets contain ore reserves.

The Company’s head office, principal address and registered and records office is 408 – 837 West Hastings Street, Vancouver, British Columbia, Canada, V6C 3N6.

The recovery of the amounts comprising exploration and evaluation assets is dependent upon the confirmation of economically recoverable reserves, the ability of the Company to obtain necessary financing to successfully complete their exploration and development, and upon future profitable production.

These unaudited condensed interim financial statements have been prepared by management on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred ongoing losses and has not earned operating revenue. A number of alternatives including, but not limited to selling an interest in one or more of its exploration and evaluation assets or completing a financing, are being evaluated with the objective of funding ongoing activities and obtaining additional working capital. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to commence profitable operations in the future and repay its liabilities arising from normal business operations as they become due.

The unaudited condensed interim financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

The Company estimates it has sufficient working capital to continue operations through fiscal 2014.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

These condensed interim financial statements were authorized for issue on December 23, 2013 by the directors of the Company.

Statement of compliance and conversion to International Financial Reporting Standards

These unaudited condensed interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standard 34 “Interim Financial Reporting” (“IAS 34”) using accounting policies consistent with the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and Interpretations of the IFRS Interpretations Committee.

These unaudited condensed interim financial statements do not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended July 31, 2013.

3. ADOPTION OF ACCOUNTING STANDARDS

The following standards and amendments to existing standards have been adopted by the Company commencing August 1, 2013:

IFRS 9 “Financial Instruments”

This new standard is a partial replacement of IAS 39 “Financial Instruments: Recognition and Measurement”. IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The adoption of this standard had no impact on the Company’s unaudited condensed interim financial statements.

IFRS 12, “Disclosure of Interests in Other Entities”

IFRS 12, “Disclosure of Interests in Other Entities”, establishes disclosure requirements for interests in other entities, such as joint arrangements, associates, special purpose vehicles and off balance sheet vehicles. The standard carries forward existing disclosures and also introduces significant additional disclosure requirements that address the nature of, and risks associated with, an entity’s interests in other entities. The adoption of this standard had no impact on the Company’s unaudited condensed interim financial statements.

IFRS 13, “Fair Value Measurement”

IFRS 13, “Fair Value Measurement”, is a comprehensive standard for fair value measurement and disclosure requirements for use across all IFRS standards. The new standard clarifies that fair value is the price that would be received to sell an asset, or paid to transfer a liability in an orderly transaction between market participants, at the measurement date. It also establishes disclosures about fair value measurement. Under existing IFRS, guidance on measuring and disclosing fair value is dispersed among the specific standards requiring fair value measurements and in many cases does not reflect a clear measurement basis or consistent disclosures. The adoption of this standard had no impact on the Company’s unaudited condensed interim financial statements.

6. EXPLORATION AND EVALUATION ASSET

During the year ended July 31, 2011 and amended in July 2012, the Company entered into an agreement with Reva Resources Corp. ("Reva"), to earn a 50% interest in Reva's Chu Chua massive sulphide deposit ("Chu Chua"), located north of Kamloops, British Columbia. To earn the 50% interest, the Company, on or before December 31, 2013, was to carry out, and fund the estimated \$1,070,000 work program. There are two separate 1% net smelter returns on Chu Chua to underlying parties. Two significant shareholders of Reva are directors of the Company. During the year ended July 31, 2011, the Company incurred \$37,642 in geological consulting expenditures. During the year ended July 31, 2012, the Company incurred \$70,811 in geological consulting expenditures and paid \$5,000 as a security deposit. Additionally, during the year ended July 31, 2012, the Company received a mining exploration tax credit of \$11,292. During the year ended July 31, 2013, the Company incurred \$4,181 of geological consulting expenditures and paid the sum of \$250,000 to Reva, acknowledged as a work program credit of \$500,000 towards the Company's Chu Chua obligation. In addition, the Company received a mining exploration tax credit of \$21,330 during the year ended July 31, 2013.

During the three months ended October 31, 2013, the Company acquired a 100% interest in Chu Chua. In consideration, the Company paid Reva \$1,500,000 and issued 5,436,000 common shares of the Company at a value of \$217,440. The shares are subject to a four-month hold period expiring February 4, 2014. The 100% acquisition agreement provides that it supercedes and replaces the earlier 50% earn-in agreement and the Company is no longer required to complete the recommended \$1,070,000 work program on or before December 31, 2013. In addition, the Company incurred \$5,377 of geological consulting on Chu Chua during the period.

7. PETROLEUM ROYALTY

Under the terms of an agreement over the sale of CVL Resources (Barbados) Ltd. (formerly a wholly-owned subsidiary of the Company) in 2002, the Company retained a 2.5% royalty for any hydrocarbons discovered on certain petroleum exploration permits in Australia. During the three months ended October 31, 2013, the Company earned \$2,936,668 (2012 - \$72,631) of petroleum royalty and as at October 31, 2013, the Company had \$3,032,224 (July 31, 2013 - \$1,174,795) included in receivables.

Amounts due to related parties (Note 10)	3,333	8,422
Accrued liabilities	21,000	16,000
Total	\$ 24,624	\$ 24,711

The average credit period of purchases is one month. The Company has financial risk management policies in place to ensure that all payables are paid within the pre-agreed credit terms.

9. CAPITAL STOCK AND RESERVES

a) Authorized share capital and reserves

As at October 31, 2013, the authorized share capital of the Company is an unlimited number of common shares without par value and an unlimited number of preferred shares without par value, all issued shares, consisting only of common shares are fully paid.

Reserves relate to stock options and compensatory warrants that have been previously issued by the Company.

During the three months ended October 31, 2013, the Company issued 5,436,000 common shares at a price of \$0.04 per share pursuant to the Chu Chua property agreement (Note 6). Shares are valued at the market price on the date of issuance.

b) Stock options

The Company has an incentive stock options plan in place under which it is authorized to grant options to directors and employees to acquire up to 6,035,887 of the Company's issued and outstanding common shares. Under the plan, the exercise price of each option may not be less than the market price of the Company's stock as calculated on the date of grant less the applicable discount. The options can be granted for a maximum term of 10 years and vesting periods are determined by the Board of Directors.

As at October 31, 2013, the Company had outstanding stock options, enabling the holders to acquire further common shares as follows:

2015	<u>48,400</u>
	<u>\$ 102,850</u>

- b) The Company entered into management and consulting contracts with companies having a director and an officer in common. The Company has agreed to pay the companies a combined total of \$25,000 per month. These contracts remain in force on a continuous basis. The contracts can be terminated by the Company by providing 90 days written notice. If termination of services is without cause, the Company will be obligated to pay 36 months of service fees to the director's company and 24 months of service fees to the officer's company.

12. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

	2013	2012
Cash paid for income taxes	\$ -	\$ -
Cash paid for interest	\$ -	\$ -

During the three months ended October 31, 2013, the Company's significant non-cash transaction was the issuance of 5,436,000 common shares valued at \$217,440 to acquire the Chu Chua property.

There were no significant non-cash transactions for the three months ended October 31, 2012.

13. SEGMENTED INFORMATION

The Company operates in one business segment being the acquisition of exploration and evaluation assets. The Company's mineral property is held in Canada.

14. FINANCIAL AND CAPITAL RISK MANAGEMENT

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The carrying value of receivables and accounts payable and accrued liabilities approximate their fair value because of the short-term nature of these instruments.

14. FINANCIAL AND CAPITAL RISK MANAGEMENT (cont'd...)

The following is an analysis of the Company's financial instruments measured using the fair value hierarchy as at October 31, 2013 and July 31, 2013:

	As at October 31, 2013		
	Level 1	Level 2	Level 3
Cash	\$ 505,886	\$ -	\$ -
Short-term investments	\$ 5,816,316	\$ -	\$ -

	As at July 31, 2013		
	Level 1	Level 2	Level 3
Cash	\$ 1,452,666	\$ -	\$ -
Short-term investments	\$ 5,311,101	\$ -	\$ -

Financial risk factors

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit risk

Credit risk is the risk of loss associated with counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash, short-term investments and receivables. Management believes that the credit risk concentration with respect to financial instruments included in receivables is remote because instruments are due primarily from government agencies and cash and short-term investments are held with reputable Canadian financial institutions.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when they come due. As at October 31, 2013, the Company had a cash balance of \$505,886 (July 31, 2013 - \$1,452,666) and short-term investments of \$5,816,316 (July 31, 2013 - \$5,311,101) to settle current liabilities of \$24,624 (July 31, 2013 - \$24,711). To maintain liquidity, the Company is continually investigating financing opportunities. As disclosed in Note 1, there can be no assurance these efforts will be successful in the future. All of the Company's financial liabilities are subject to normal trade terms.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant.

a) Interest rate risk

The Company has cash balances. The Company's current policy is to invest excess cash in investment-grade short-term deposits certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. The effect of a 1% change in interest rates is approximately \$58,000.

14. FINANCIAL AND CAPITAL RISK MANAGEMENT (cont'd...)

Financial risk factors (cont'd...)

b) Foreign currency risk

The Company is not currently exposed to significant foreign currency risk as most transactions are denominated in Canadian dollars.

c) Price risk

The Company is exposed to price risk with respect to commodity prices. Changes in commodity prices will impact the economics of development of the Company's mineral properties. The Company closely monitors commodity prices to determine the appropriate course of action to be taken.

Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the exploration and development of its mineral properties, acquire additional mineral property interests and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk. In the management of capital, the Company includes the components of equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue debt, acquire or dispose of assets or adjust the amount of cash.

In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. The annual and updated budgets are approved by the Board of Directors.

The Company currently is not subject to externally imposed capital requirements. There were no changes in the Company's approach to capital management.

15. SUBSEQUENT EVENT

Subsequent to October 31, 2013, the Company granted 6,000,000 stock options to directors, officers and consultants at a price of \$0.05 per common share exercisable up to December 19, 2018.
